

"Colours of Emotions"

Developing key competences:

- emotional
- linguistic
- social
- ability to work in a group
- IT skills

1. Greetings

- integration games. Children sit in a circle. The teacher touches the shoulder of the child, they show their emotions on the face. One by one, everyone shows a given emotion.

2. Brainstorming

- conversation about emotions "What kind of emotions do we know"

3. Working with technologies

- use of the learningApps.org application - the teacher's creation of the application "Colors of emotions" and the children adjusting the colors to a given emotion.

- VideoShow to create a movie - video and photo editor (Application on Google Play)
- <https://www.youtube.com/watch?v=c2TTL5xgyuM>

4. I know emotions - art work

- the child colors the emotion of his choice - in the form of a face. He chooses colors that he associates with a given emotion.

The results:

- children know and can name emotions
- children can tell the color of the emotion
- are able to skillfully cooperate in a group
