Erasmus+

Age: Kindergarten (3-4 years old)

Purpose: Language, social and math competences

Material: dice, 30 A3 papers

Skills: counting, number and shapes identification, following directions and taking turns.

Time: 30/45min

- 1- First set up a life size board game using the A3 papers.
- 2- The students take turns rolling the dice and moving themselves around the board.
- 3- In every space they will have a number, color, shape, preposition of place or size to identify.
- 4- For every right answer they move 2 spaces and for every wrong question they go back 1 space.
- 5- The winner is the student who reaches space 30 first.
- 6- The students can be divided into 2 teams depending on the size of the class.
- 7- This life size board game can be set up in minutes and is full of learning. It can be played inside too.
